

New Payroll Processing and Quarterly Report Processing Fee Structure

Effective January 1, 2018 Detweiler, Hershey & Associates payroll will be changing its processing fee structure. The new processing fee structure will eliminate the quarterly billing for payroll tax report processing. The previous quarterly processing fee will be part of the per pay fee. The new price will have a base fee as well as a fee based on the number of employees paid during that payroll period. It will also include a yearend fee for the amount of W-2's produced. It is through this processing fee structure, that Detweiler, Hershey & Associates can more accurately reflect the services rendered.

In aggregate, there should be a nominal fee change. On a per payroll period basis, there will be a change as a result of fluctuation in the number of employees paid and the inclusion of quarterly processing fees. This will result in a higher per payroll fee, but eliminate the quarterly charges.
